

EDINBURGH DIVING NEWSLETTER

August 2004

Welcome Back. We hope you all had a good summer break. As you are probably aware, the diving programme is almost full and spaces are few and far between. The success of the British divers in the Olympics seems to have captured everyone's imagination. Thank you to all existing divers who booked in so promptly for the new term - it helps us to run the programme more smoothly. During the second week of term we tested all the divers in the programme on their skill levels to ensure that everyone is in the correct class. We may contact some parents to see if it is possible to move their

child to a more advanced class. We will try to have this completed by the 13th September.

We have a very busy term ahead, with club championships, East District championships and the big trip to Leeds for the White Rose Invitational.

Thank you to all parents who travelled to Ayr last weekend for the Novice League and well done divers. The notice board is being updated this week. Please remember to keep checking it for all information. The diving grades table will also be on the board, so parents can see how their child is progressing throughout the year.

Just a reminder to every one that t-shirts, chamois stickers and pens with the Edinburgh Diving logo can be purchased.

British Diving

There are three elite programmes within GB Diving.

1. World Class Performance GB team members Score criteria set
2. Junior Olympic Programme (JOP) Britain's top divers, aged 14-18. Score criteria set
3. Junior Talent Programme (JTP) Britain's top divers, aged 8-13

Junior Talent Programme (JTP) has altered slightly since last year. It was formerly known as the World Class Start Programme. There are now two sections within the programme - JTP itself and Zone squads

- JTP has approx 16 divers
- There will also be two JTP "zones", one for the North of England to include Scotland, and one for the South of England.
- The zones will have up to 20 divers from the ages of 8 - 13 years.

Edinburgh Diving Club is sending 6 divers to Sheffield for the Zone testing day on 4th September.

The divers are: **Liam Greig,** **Gregor McMillan** **Grace Reid**
 Marcus Shaw **Laura Smith** **Anna Sless**

Grace Reid will be travelling with the divers for testing, although she has already been accepted onto the programme for a second year. Well done to Grace for all her hard work this year.

You will find further information on the GB website www.britishswimming.org

This month the Armchair Coach provides advice on 'The Perfect Hurdle Step'

Dear Armchair Coach

What for you is the secret of the perfect hurdle?

The Armchair Coach replies

Hmm...what works for one person may not necessarily work for you. The World Start programme teaches a 2 or 4 step hurdle but my success as a top diver was based on the classic 3 step.

Analyse your own hurdle and observe the hurdles of others. Watch the other divers and see if they land on the end of the board. Look and see where their arms are on take off. Introduce a Fundraising Fine Box for your squad and put in 20p each time you don't land on the end of the board. We'll be able to afford to have bubbles installed before you know it.

Watch out for the **BIG BOLD** hurdle. It's great when it works but may win you a Past the Steps Award when it doesn't.

Are you a **YEE HA STAMP THAT BOARD** diver or do you have a **BEAUTIFUL BALLETTIC BEAM** walk?

Do you favour the **HOPPY SKIPPY** approach, or do you obsess so much about that **STEP STRETCH** that you forget about the dive?

Do you have a **FORMIDABLE FAST TWITCH PING** or do you **STEP AND SKID** to the end of the board?

Watch out for the **SOFT SILENT SIMPLY TO DIE FOR** hurdle that is, smooth, effortless, always perfectly on the end of the board, leaves you a lifetime to get your arms through and lifts you way past the 5m platform.

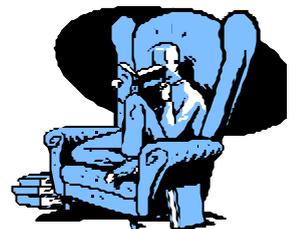

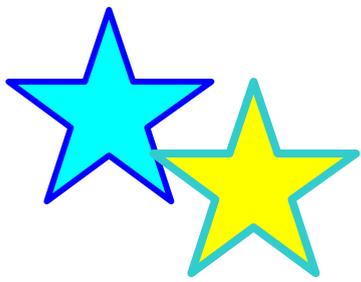

Here are a few things to experiment with...although not necessarily in this order!

- Keep your chin up as you start the walk but make sure you sight the end of the board down your nose as you lift your knee so you can be sure of landing on the end. As you drop your knee lift your chin and eyes so you can see the orange seats. This is called 'spotting'. As both feet come down on the end of the board swing your arms through fast and long and narrow. You should feel your feet on the end of the board, see the seats and feel your arms back at your ears before take off.
- Once you've landed with two feet **ON THE END OF THE BOARD** try and stay on the board until it 'lifts' you.
- Find the optimum place for your depress leg. Always place this foot in exactly the same place each time. Think of placing it heel first or flat, Enjoy the feeling of the board bending beneath this foot. Your arms should be well behind you at this point.
- Experiment with the setting of the fulcrum in relation to the above.
- Tie long hair back

Let me know when you find out what works for you!

No question is too silly for the armchair coach. Keep them coming!
